

ViPer: Vision Perfect Screen

Better visibility with
Vision Perfect Screen

Better visibility without compromising durability

ADFORS ViPer: Vision Perfect Screen is a durable fiberglass screen manufactured using an enhanced tighter weave, with finer mesh, woven from smaller yarns compared to standard fiberglass screening.

One of the biggest advantages ViPer screen offers is the construction allows for sharp, brilliant visibility through windows and doors. Aside from maximized view, ViPer screen provides better airflow, more light and greater insect protection.

As a premium screen product, ViPer is tested using ASTM D3656 standards. ADFORS is also leading the industry by making our full line of fiberglass screen ortho-phthalate free, ahead of industry standards.

Features and benefits of ViPer Screen:

- 20% thinner yarn than the industry standard produces a screen that offers clear, increased visibility as well as greater light transmission and airflow
- Smaller opening than the industry standard provides better protection from insects and small particles
- Smaller, refined yarns present a less obtrusive appearance which enhances curb appeal

ViPer FAQ

How is ViPer less visible than standard fiberglass?

ViPer is designed with a thinner fiberglass yarn to allow you to be able to see through it more clearly. The thinner yarn combined with a tighter weave provide the illusion of a virtually invisible screen.

Does thinner yarn mean that the screen will tear easily?

No, not at all. ViPer screen was specially engineered to maintain optimal strength while allowing for a better outward view.

What makes ADFORS Screen Safer?

ViPer Screen is ortho-phthalate free. We have maintained the same great aesthetics, properties and processibility that our screen has always had. We have also achieved GREENGUARD Gold certification on this product, which certifies that the product has low chemical emissions.

CONSTRUCTION	COLOR	LENGTH (FT)	WIDTH (IN)
18x18 (0.009 in yarn)	Charcoal	100 ft	36, 48, 60
		600 ft	18, 24, 28, 30, 32, 34, 36, 42, 48, 54, 60, 72
